To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant-Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

As I bring to a close this Fifth Session of the Twenty-fourth Parliament, I wish to express appreciation for your able and conscientious attention to the wide range of measures that have been introduced to assure the Province's continued economic advancement and the well-being of its people.

You have brought to your task imagination and vigour. You have recognized that in our swiftly moving, free-enterprise economy we cannot stand still. Our growing population requires an expansion in highways, municipal roads, waterworks, sewers, hospitals, schools, university buildings, flood control, conservation and public works of all kinds. The Province, within its jurisdiction, must be a positive force in maintaining both short and long term economic stability. Accordingly, you have approved a great developmental program unparalleled in the annals of our history—a program designed not only to increase our productive assets, but to create new job opportunities and bolster employment and income.

In addition to the huge capital investment program, you have approved special measures enabling further welfare and works projects to be undertaken by the municipalities. Such projects can be financed entirely out of provincial funds, so that no part of the cost will fall on the municipalities. The amounts being provided in this way exceed by many times the current rate of expenditure of the municipalities for relief purposes and they will, therefore, permit the municipalities to expand their works programs or deal with other matters of importance to them without increasing their tax rates. The municipalities and school boards have also been assisted by a special grant of \$4 per pupil in elementary and secondary schools.

You have also given your approval to the largest provincial budget for education ever passed in this Legislature. School grants, including the special supplementary per pupil grant, and payments to universities and institutions of higher learning approved at this Session, total over \$87 million. With appropriations for all educational purposes, the Province's contribution totals over \$102 million.

The Teacher's Superannuation Fund has been strengthened. In addition, you have extended the full advantages of the 1954 amendment to The Teachers' Superannuation Act to teachers who had retired on pension before that amendment came into effect. You have also authorized an allowance of \$25 per month to the widow of each teacher who died on pension, or while on the teaching service, before the 1949 amendment to the Act came into effect. This allowance was dated back to April 1, 1954.

You have made provision for a start on the erection of additional accommodation for the Ryerson Institute of Technology, the Lake Head Junior College and the Ontario Schools for the Deaf and Blind. An increased

appropriation has been made to provide more bursaries for deserving students. In these and other ways, the principle of equality of education opportunity throughout the Province is being made a living reality.

You have again given recognition to the needs of the municipalities. Both the conditional and per capita unconditional grants have been increased substantially. A fiscal system has been brought into operation under which, on the average, \$1 out of every \$3 that a municipality spends is provincial revenue, and were it not for provincial assistance to municipalities, the aggregate municipal tax levy would be 50 per cent higher than it is.

Legislation affecting municipalities has been enacted to keep pace with their growth and development. Both The Municipal Act and The Assessment Act have been amended, and the powers of Council have been strengthened and broadened in a number of ways.

You have approved the establishment of a system of local civil defence under which the Federal-Provincial contribution will represent 75 per cent of the cost of each municipality's approved expenditure for this purpose.

The legislative and financial measures instituted by the Government of Ontario in partnership with the Government of Canada are giving support to housing activity, particularly with respect to rental and owner-occupied housing of low and moderate cost. The present volume of dwelling units under construction assures another record year of construction activity.

You have passed The Rehabilitation Services Act to integrate the various rehabilitation services rendered by several departments. It will make possible the provision of rehabilitation services for the civilian handicapped, among whom are those who are not eligible for restoration benefits under Workmen's Compensation or War Veterans' legislation. Under these new measures, the physically handicapped will be able to obtain all necessary treatment and training to the end that they may be restored to gainful employment.

You have enacted The Indian Welfare Services Act in keeping with the policy of the Government of affording full services of citizenship to the Indian members of our population. This Act extends mothers' allowances to Indians on the same basis as to other citizens and authorizes agreements to be made with the Government of Canada respecting child welfare services, Homes for the Aged facilities and rehabilitation services for Indian residents. It further implements recommendations made last year by the Select Committee on Civil Liberties and the Rights of Indians in Ontario.

You have authorized a broadening of The Mothers' Allowances Act. An amendment to The Deserted Wives' and Children's Maintenance Act, passed at this Session, is designed to prevent deserting husbands from avoiding maintaining their wives and children by making appeal or taking other protracted court proceedings.

You have revised The Homes for the Aged Act to clarify its purpose and facilitate its administration. A new principle of major importance has been adopted by making provision for special home care in private residences to persons eligible for admission to a Home for the Aged.

The Disabled Persons' Allowances Act was passed to replace The Disabled Persons' Allowances Act, 1952, which pioneered allowances for permanently and totally disabled persons. The new Act will enable the Government of Canada and the Government of Ontario to share expenditures for this purpose equally. Amendments were also made to The Blind Persons' Allowances Act reducing the eligibility age to eighteen and increasing permissible income.

In the field of health, you have approved many important measures, notably assistance in the form of special grants to all our hospitals and provisions for increased research and treatment with respect to cancer, heart ailments, poliomyelitis, RH factor in pregnancy and maternal and child health programs. The Alcoholism Research Foundation has been given extended educational powers.

In agriculture, there has been enacted an important measure amending The Farm Products Marketing Act to give farmers a direct and equal voice with buyers in the marketing of their own produce. The Ontario Telephone Development Corporation was granted extended powers which will give fresh impetus to the extension and improvement of telephone service in the rural parts of the Province. Funds have also been provided to carry on a full-scale program of rural electric power extensions.

During the Session, the Interim Report of the Committee of Inquiry into the Economics of the Gold Mining Industry of Ontario was tabled for your study and consideration.

The important amendments to The Mining Act involve changes in the provisions covering the staking and recording of claims. The recent unprecedented prospecting activity, attending important discoveries of new deposits of base metals and uranium, has resulted in the staking of new mining claims to the highest level in the history of the Province.

The Department of Mines, in cooperation with the Department of Agriculture, assisted by advisors from the Ontario College of Agriculture, will make a special study of sulphur fumes on farm crops and vegetation in the Sudbury district during the coming summer.

You have approved legislation to safeguard our forestry and game and fish resources. Amendments have been made to The Lakes and Rivers Improvement Act, The Fish Inspection Act, The Forest Fires Prevention Act, The Public Lands Act and The Game and Fish Act. Progress has been made to ensure the preservation of existing Provincial parks in their true natural state and to provide for the establishment of new parks throughout the Province. The program of operating forest management units under which the financing of roads is placed on a self-liquidating basis is being carried forward.

You have brought up to date the Province's planning, conservation and housing measures by the complete revision of The Planning Act. It has been brought into line with the latest planning procedures and will permit communities and planning boards more flexibility of operation. In its revised form, the Act permits each community to establish the type of organization and program best suited to its own particular needs. The Conservation Authorities Act has been amended to facilitate the establishment and organization of conservation authorities.

The regional development program initiated last year is well underway. It is anticipated that associations in all nine regions of the Province will shortly be operating in partnership with the Province.

Legislation has been passed transferring the work of the Ontario Research Council to the Ontario Research Foundation in order that the research activities of the universities and the Foundation may be more closely integrated.

Legislation has been passed transferring the work of the Ontario Research Council to the Ontario Research Foundation in order that the research activities of the universities and the Foundation may be more closely integrated.

An amendment to The Jurors Act has been passed, which will strengthen and increase the efficiency of the Jury system in Civil cases as well as reduce costs.

Grand Juries are reduced from thirteen to seven. This will come into force after complementary legislation is passed by the Parliament of Canada.

You have reduced the general rate of amusement tax by 20 per cent, raised the tax exemption on the admission price to place of amusement or entertainment to 25 cents, and exempted from tax all admissions of patrons of purely theatrical and musical performances by Canadian performers under Canadian management.

Exemption from Security Transfer Tax has been extended to the bonds and debentures of Ontario municipalities and school boards. Municipalities may now issue sinking fund debentures which will assist them in their financing and enable them to borrow on more favourable terms.

Many other Bills have been given your consideration and approval. Among them are amendments to The Municipality of Metropolitan Toronto Act, 1953, The Workmen's Compensation Act, the Trench Excavators Protection Act, 1954, The Coroners Act, the County Judges Act, The Ontario Fuel Board Act, 1954, The Ontario Food Terminal Act, The Insurance Act, The Juvenile and Family Courts Act, 1954, The Matrimonial Causes Act, The Registry Act, The Gasoline Tax Act and The Gas Handling Act.

Appreciation is expressed to all members of the committees of the Assembly. In recent years, the work of these committees has been extended. Their value is fully proven by the understanding engendered at their meetings and the many recommendations they have submitted that have been adopted.

Consideration has been given by the several committees of the House to the means of increasing the supply of teachers for elementary and secondary schools, the Farm Products Marketing Act and other subjects of agricultural interest, game and fish laws and regulations, the amendments to The Mining Act and The Mining Tax Act, matters relating to heart disease, air pollution and smoke control, cemeteries, Federal health grants, sex deviation, alcoholism and a variety of other subjects.

Three Select Committees of the House reported during the Session. These were: The Select Committees on Highways' Administration, on Highway

Safety and on the Establishment of a System of Certificates of Title of Ownership of Motor Vehicles. Safety has been enhanced through amendments to The Highway Traffic Act. Many recommendations of The Select Committee on Highways' Administration have also been implemented, either before or since its report, through the adoption of a new system of competitive tendering for contracts, of pre-engineering, of post engineering audit and of improvement in departmental organization. The report on The Select Committee on the Establishment of a System of Certificates of Title of Ownership of Motor Vehicles has resulted in the preparation of a Bill which will be given circulation to provide better opportunities for examination and study by all organizations and persons concerned. This Committee has been re-appointed and it will continue its examination of this important and complex subject. Two other Select Committees, one on Toll Roads and the other on Air Pollution and Smoke Control, have also been appointed.

Satisfactory provision has been made for the financial requirements of the Government for the coming fiscal year, for which I thank the Honourable Members. It is gratifying that the Government has not found it necessary to increase or impose any new taxes and that, in fact, tax reductions have been approved. The credit standing of the Province is secure and its bonds are held in high public confidence, enabling the Government to meet its full borrowing requirements at low rates of interest.

In proroguing this Session, I pray that Divine Providence will guide and bless you.

The Provincial Secretary then said:—

Mr. Speaker and Members of the Legislative Assembly:—

It is the will and pleasure of the Honourable the Lieutenant-Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.

RODERICK G. LEWIS,
Clerk of the Legislative Assembly
of Ontario.
